

## DermaPlex™ is the way to a bright new look for your skin. Glowing and healthy!

DermaPlex™ range is based on natural ingredients including Dermocoane™, a powerful anti-oxidant activated by heat and light, which protects the skin against UV damage and environmental aggression. With regular use of this range the harmful effects of environmental aggressors and pollutants will be reduced to leave your skin looking healthy, youthful and radiant.

Everyday our skin is subjected to a whole range of damaging factors which lead to premature ageing, resulting in the formation of fine lines and wrinkles, loss of elasticity, pigmentation and a dull complexion. The most common causes of skin ageing are UVA and UVB rays from the sun, stress, lifestyle factors and pollution, not to mention the inherent ageing process that is determined by our biological clocks. All of these problems are associated with the presence of the free radicals that form in our skin and it is these free radicals which are the primary cause of premature skin ageing.

DermaPlex™ is the solution to these problems and the maintenance of a good and healthy skin! It contains Dermocoane™, a powerful anti-oxidant activated by heat and light which protects the skin against free radicals and environmental aggressors. Dermocoane™ is a biotechnological ingredient obtained from the culture of the *Thermus thermophilus*, a micro-organism living in extreme environmental conditions full of free radicals. Dermocoane™ inhibits ROS (radical oxygen species) and protects cells and skin from UVA damage.

Regular use of DermaPlex™ will alleviate the visible signs of ageing to reveal a youthful-looking, radiant complexion resulting in a new You! For best results, be sure to use the entire DermaPlex™ range of products, as they have been specifically designed to work in synergy to provide optimum health and wellness for your skin!

### DAILY REGIMEN PRODUCTS

#### TRIPLE ACTION CLEANSER WASH - Skin clean and healthy!

This fresh soap-free gel application not only cleanses but in the process of washing your face, the beads will help to remove impurities, gently exfoliating and removing any dead skin cells. This gentle action removes traces of make-up from the skin surface, smooths, polishes and refines the pores, preparing the skin for the skin treatments to follow.

**To use:** Splash your face, squeeze a small amount of Triple Action Cleanser Wash into palm of your hand. Using the fingertips dab onto the face, clean the skin massaging the face. Using lukewarm water splash, rinse and pat the face dry. Leaving the skin perfectly clean, looking fresh and radiant.

#### DAY TONE MOISTURISER SPF 20 (normal and combination skin types)

##### Awake and be moisturised!

Protective day moisturiser for normal to oily skin. Contains Dermocoane™, a biotechnological ingredient obtained from the culture of the *Thermus thermophilus*, a micro-organism living in extreme conditions rich of the free radicals. Dermocoane™ inhibits ROS (radical oxygen species) and protects cells and skin from UVA damage. Natural amino acid Lysine Aspartate boosts cell energy metabolism, vitamin E and vitamin C add anti-oxidant properties, saccharide isomerate together with sodium PCA and nourishing oils of Avocado and Jojoba help to moisturise the skin and restore the appearance of youth and vitality. SPF 20 provides UVA and UVB protection.

**To use:** After cleansing, apply to the skin. Can be used in conjunction with Anti-Dark Spot Serum and/or Blemish Perfection Genti-Calm Gel to intensify the results of treatments.

#### DAY TONE MOISTURISER (dry and sensitive skin types)

##### Awake and be moisturised!

Protective day moisturiser with extra hydrating properties on the skin. It contains Gorgonian extract, which has natural anti-inflammatory and soothing effects on the skin. Unique hexapeptide Sensillen™ alleviate discomfort of sensitive skin, saccharide isomerate, sodium PCA and sodium hyaluronate significantly improves hydration and skin softness. Nourishing oil of Jojoba helps to restore the appearance of youth and vitality.

**To use:** After cleansing, apply to the skin. Can be used in conjunction with Anti-Dark Spot Serum and/or Blemish Perfection Genti-Calm Gel to intensify the results of treatments.

#### NIGHT RESTORATIVE Cream (all skin types)

##### Skin restoration whilst asleep!

This restorative nourisher promotes skin repair during the period of rest. It re-energises the skin and respects the skin's natural immunity. Contains vitamin A, strong anti-oxidant that helps with skin renewal. Avocado and Jojoba oil, Shea butter together with moisturising actives of saccharide isomerate, sodium hyaluronate and sodium PCA hydrate the skin, soften it and revive. Natural extract from the fruit of *Kigelia Africana* (African Sausage Tree), which is rich in flavonoids firms and tones the skin whilst asleep, so that you awake the next morning with a radiant evenly-toned skin that glows with health.

**To use:** After cleansing, apply to dry skin. Slightly massaging until absorbed.

Can be used in conjunction with Anti-Dark Spot Serum and/or Blemish Perfection Genti-Calm Gel to intensify the results of treatments.

### SPECIALISED TREATMENT PRODUCTS
